

FOR DETAILS SCAN

ChromePath

Automated H&E and PAP Stainer

Easy to use LCD touch screen panel for easy operation

Capable of processing upto 150 slides in a continuous mode operation

Offers a comprehensive range of functions from baking to dehydration

FEATURES

Customizable protocols to suit your specific laboratory needs

Removable jars for convenient solution exchange and easy cleaning

In-built alarm system for process completion and error notification

DESCRIPTION

ChromePath is an Automated Solution that not only enhances convenience but also establishes new standards for your laboratory requirements. With its compact design, it offers both efficiency and precision, making it an ideal high-throughput routine H&E and PAP Staining. ChromePath standardizes the entire process of staining multiple slides simultaneously, setting a new benchmark in workflow productivity.

Enjoy flexibility with 26 stations, among which 17 are reagent stations, ensuring effortless slide rack loading and accommodating a variety of staining protocols. The user-friendly, intuitive software provides enhanced control, significantly reducing the potential for human errors and ensuring a smooth, error-free operation.

TECHNICAL SPECIFICATION

| Voltage: 220v | Frequency: 50-60Hz | POWER: 300V/A |
|-----------------------------|-----------------------------------|----------------------|
| Capacity of Each Slide Rack | 30 Slides | |
| Number of Stations | 26 | |
| Number of Reagent | 17 | |
| Jar Capacity | 500ml | |
| Washing Stations | 3 | |
| Waiting Stations | 3 | |
| Baking Station | 1 | |
| Baking Temperature | 35-99°C | |
| Continuous Slide Loading | Yes | |
| Program Capacity | Supports 5 Programs in single run | |
| Dimension | 120(L)x50(W)x60(H)cm | |
| Weight | 110kg | |

ORDERING INFORMATION

| Equipment Name | Catalog No |
|-----------------------|------------|
| ChromePath | PS-CP5 |
